Workshop Description

Gain the credentials that set you apart in the cybersecurity field with the Certified Information Systems Security Professional (CISSP) training. This comprehensive course is designed to equip you with the knowledge and skills needed to design, implement, and manage a world-class cybersecurity program.

Offered through the NCyTE Center as part of the (ISC)² Global Academic Program, this training provides all student materials, flashcards, and access to the CISSP CBK, ensuring a thorough preparation for the CISSP exam. By earning your CISSP, you validate your expertise and unlock access to exclusive (ISC)² resources, tools, and professional networking opportunities.

Workshop Highlights

- Comprehensive review of the 8 CISSP domains, including Risk Management, Security Operations, and more.
- Materials provided include CISSP CBK, student guides, and flashcards.
- Hands-on labs aligned with NSA Knowledge Units to enhance learning.
- Designed to refresh knowledge, identify study priorities, and prepare for the CISSP exam.
- Opportunity to join the prestigious (ISC)² community and access exclusive resources.
